

## Enhance New Approaches in BioBased Local Innovation Networks for Growth

### PRESS RELEASE

#### H2020 ENABLING Project 1<sup>st</sup> Webinar

**The workshops and webinars organised within the ENABLING project are about to start. On Monday, January 28, at 14:00 CET, the first ENABLING webinar will be held. Selected good practice examples about how to sustainably use biomass and biomass residues while adding value to the by-products will be presented.**

On Monday, January 28, at 14:00 CET, the first ENABLING webinar will take place. The coordinator, Giorgia Noaro, will give a general introduction of the ENABLING project and its objectives, followed by the presentation of three selected good practice examples from Belgium, Italy and Bulgaria. These good practice examples show how to sustainably use biomass and biomass residues while adding value to the by-products.

The webinar aims at anybody who is interested in bioeconomy, circular economy, bioeconomy projects and sustainable use of biomass residues. There will be the opportunity to ask questions to the presenters and to discuss about the topic with the other participants.

The webinar will be in English. If you want to participate in the webinar, please write an e-mail to Christine Beusch: [beusch@e-p-c.de](mailto:beusch@e-p-c.de), then we will send you the dial-in details.

More information on ENABLING can be found on the [Enabling Project website](#) and Enabling social media ([LinkedIn](#), [Twitter](#)).

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 774578.
